PIONEER WASHER.
E. G. BOLTER,
AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It does its work by a reverse motion in forcing the water through the clothes.

It having a tight cover, the steam thus assists materially in cleansing the clothes, and also avoids the inhaling of steam from hot suds.

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to all housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.

THE COUNTY RIGHTS, now unsold, will be sold at a bargain if applied for soon.

Mansion House, and of John Wilson,

The Boat leaves Portland Wednesdays and Saturdays at 7½ A. M. Returning leaves Astoria Thursdays and Mondays at 6 o'clock A. M.

Every person purchasing a Passenger Ticket will be presented with one of 900 Prize Tickets, to be drawn on the 1ST DAY OF AUGUST, 1867, for the following Prizes:
Steamer U. S. GRANT, to be divided into 4 shares;
ONE BLOCK OF LOTS IN EAST PORTLAND, divided into 8 shares, or one lot to the share, viz: Lots 1, 2, 3, 4, 5, 6, 7 and 8, Block 17, opposite the "New Columbian" Hotel, and at the terminus of the proposed Suspension Bridge;
ONE GOLD WATCH, worth $100;
250 CORDS DRY FIR WOOD, in 3 shares, to be placed on the Brooklyn Wharf.

The Steamer is 54 tons burthen, 62 horse-power engine, propeller wheel, draft of water 5 feet. She is being thoroughly refitted and refurnished as a Passenger Steamboat. The Boat will be delivered in perfect order, free from all incumbrance, and Warranty Deeds made for the real estate, to the persons drawing the same. Tickets can be had of O. P. Sheridan in Boston.

BOSTON, Oct. 7.—Gen Sheridan was received with great enthusiasm at various points along his route from Newport. He arrived at Boston at 11 o'clock and was received by the city authorities and an immense crowd of citizens and military in a line over a mile long, formed a procession. It was an hour in passing a given point. Sheridan made a brief speech expressing his obligations for the popular approval of his actions and thanks for the reception. The troops presented arms and sent up an immense cheering as he passed along the line. At several points he was showered with bouquets. Store business was generally suspended and the Banks and Custom House closed from 2 to 3 o'clock.

Storm on the Gulf Coast.

NEW ORLEANS, Oct. 7.—A tremendous gale occurred at Galveston on the 3d. The papers estimate the damage to wharves, shipping, etc., at $1,000,000. At noon the water invaded the gas works so that it was impossible to build the fires. The storm seemed to have been general along the Gulf coast. Large details are given of the ships lost, houses blown down and other damage done. No reports of loss of life.

Connecticut Town Elections.

HARTFORD, Oct. 7.—The town election returns from 31 towns are received. The Democrats gain in four towns.

Washington News.

NEW YORK, Oct. 8.—The *Times'* special says the President's telegram to Sherman did not show any cause for ordering him to Washington, despite assertions to the contrary. It is supposed he intended to offer Sherman the War office, but finding the General's friendship for Grant rendered the acceptance of the offer uncertain, he hesitates to make it.

Charges have been filed against Wells, Fargo & Co for gross neglect in the transmission of the Overland Mail.

WASHINGTON, Oct 7.—Secretary McCulloch has written a letter to a gentleman in New York, on the subject of national finances. He says he considers the people of the United States as determined to preserve the Union. He also considers the faith of the Government as pledged to pay the five-twenties, when paid, in coin. There need be no apprehension that they will be called in at the expiration of five years from their respective dates and paid in greenbacks. The policy adopted by Congress, which is being steadily pursued by the Secretary, should alone satisfy the holders of five-twenties that they will not be paid in depressed currency, even were the national honor not involved.

BY ATLANTIC CABLE.

VIENNA, Oct 7.—The *Nonsefels Presse* publishes an authentic summary of a conversation between the Czar and Fuad Pasha, who recently visited him. The Czar said it is indispensable that Turkey shall cede Candia to Greece. He told Fuad to represent to the Sultan that he had better have Russia for a friend than to trust for support to the other end of the world. The Czar said that Russia may one day cease to be conservative, then the Sultan will find Russia opposing him with all the forces she can command.

Fuad Pasha, on his return to Constantinople, received from the Russian Ambassador a project for a Russo-Turkish alliance, having for its basis the political administrative independence of Crete and the neutrality of the Porte in the eventuality of any complications which might arise in the direct settlement of the above mentioned question between Turkey and Russia, to the exclusion of all other powers. This proposal is said to have been rejected by the Porte.

Major Sidney DeKay, a young American officer, was dangerously wounded in a recent fight with the Turks, in Crete.

NEW YORK, Oct. 7.—A telegram from Athens, Greece, Sept 23d, says that hostilities have recommenced in Candia. Combats occur daily, the Christians having the advantage.

A rumor is current in Madrid that the question pending between Spain and the United States of Colombia, in relation to the seizure of the *Cayder*, will soon be arranged.

By a royal decree and orders, the effective standing army of Spain will not exceed 85,000.

FROM OWYHEE.

We clip the following from the *Avalanche* of the 5th inst:

INDIAN ATROCITIES.

One more good man has been murdered, scalped and burned in our midst, and the savage perpetrators escaped unpunished, with some booty, such as pistol, blankets, etc.

This fresh atrocity was committed during last Thursday night, within half a mile of Oro and Owyhee cities, near the road leading between there and here. The unfortunate victim's name is Joseph F. Coltwell. He came to this Territory with Messrs. Bloom & Herd in 1865, from Jacksonville, Oregon. He was formerly from Missouri. The late hour yesterday at which we received this unwelcome item, has prevented our obtaining further information of the deceased.

It may be well enough to state here for the Indians' friends elsewhere—for they justly have none here—that these red devils perpetrated the deed in their usual christian (?) style, with unimportant variations, by shooting, scalping and then throwing the body on a fire and partly consuming the breast and bowels. We may soon expect to hear of the Throne of Grace being besieged with orisons and supplications for "Lo! the poor Indian," by our Eastern countrymen, who are totally ignorant of his fiendish character.

Last Tuesday night fifteen head of oxen, belonging to Hyde & White, were stolen on Jordan creek, about three miles above Silver City. It is suspected that Indians did the stealing, and parties are in pursuit.

Since writing the above the pursuers have returned, after following the trail into South Mountain beyond Flint District. They are sure it was the work of Indians, as arrows were picked up all along, and the trail was quite plain. The whole country in that direction is covered with fresh Indian sign, and there is every reason to believe they could be found in quite a body off south or southwest forty or fifty miles.

MILITARY ROAD SURVEY.

Last week a company of fifteen men, under command of Wm. H. Odell, were encamped at Boonville. They are going to survey a route for a military wagon road, which commences at Eugene City and runs to the eastern boundary of Oregon. The road will be 500 miles in length. We understand that it is already graded through the Cascade range, and Odell and party will survey and locate the portion this side of those mountains.

The Daily Oregonian.

FRIDAY MORNING, OCTOBER 11, 1867.

More Retrenchment.

Our "retrenching" City Council has paid one James Bothwell the sum of $153 33 as "salary as Deputy Marshal." It is well known that James Bothwell has not been a Deputy Marshal of this city. He was one of Rosenheim's "deputies," but as Rosenheim never was Marshal, most people would suppose that his appointees were not legally in office. The Courts have declared Rosenheim's election invalid; but the Council, of which body this same Rosenheim is a member, takes it upon itself to review and reverse these decisions, and to legitimate Rosenheim's appointments! Not only is the judicial authority of the State set at defiance, but money is filched from the city treasury and put into the pockets of the partisan supporters of this delectable body. But citizens must be patient! They must remember that the "retrenchers" are now in power. To be consistent and to reward its favorites equally, the Council must now pay a like sum to the other so called Deputy Marshal. Of course this will be done. Then Rosenheim must be paid his "salary" as Marshal for one and a half months. This no doubt will also be done. These stealings will amount in the aggregate to within a fraction of $500. Then Rosenheim's costs in the suits he brought to obtain the office of Marshal, will also be paid by the city. These will amount to at least $200 more. Special ordinances will no doubt be enacted for this purpose setting forth the case at great length, and the "organ" will come in for a fat fee for publishing them. This is the way to make "retrenchment" effective. The Council is coming on bravely!

There is naturally some curiosity to know if "Marshal" Rosenheim and his subordinates are still on pay. Probably they are, for there is exactly the same reason for paying them "salaries" now that there was for paying the same for the past two months. James Bothwell, into whose pockets the Council has generously thrust $153 33, has not performed any duties as a Deputy Marshal in the city. Nobody ever recognized him as an officer. Happening to be a favorite of the Council, he gets a gratuity, which of course he accepts and no questions asked. He is one of the few citizens who realize the benefits of living in a city which is governed by "retrenchers." As he was on duty for Rosenheim & Co. (if on duty at all), it would have been quite as satisfactory to citizens generally if the clique had paid him out of their own pockets. But this would not have been the sort of "retrenchment" which the clique has a liking for.

We suggest that it is now Beriah's turn to become a beneficiary of the "retrenching" Council. He has labored long and hard for his friends in that body, and it is about time for him to receive some return. It is true that the "organ" has had a good thing for several months, but as he is only a hireling in the establishment, he has probably obtained no benefit from the stealings it has received. One of his friends in the Council should at the very next meeting introduce a resolution to pay him six months' "salary" as editor of the "court journal."

The Copperhead organ of this city publishes a leader entitled "The Union record of the Democracy." If these falsifications are continued, we may be moved to illustrate this "record" by publishing a column or two of extracts from Democratic sources, beginning with the official manifesto of Buchanan and ending with a collection of the lies drawn from the Democratic organ published in this place at the commencement of the rebellion.

What has become of that Committee appointed by the Council to investigate the accounts, etc., of Marshal H yet? Why don't it report? Let us hear from it! The clique voted down a resolution declaring that he had performed the duties of his office in a satisfactory manner, and now refuse to go on with the investigation" which they ordered. But this is only a characteristic piece of meanness and is probably it is unwise to expect anything fair from such a source.

The Colorado Legislature stands as follows: Council—Republicans, 8; Democrats, 4. House—Republicans 18; Democrats, 10; Conservative-Johnson administration snap men, 2.

The Vigilantes in Montana.

A late number of the Montana *Post* has the following:

The proverbial equanimity of Virginia was somewhat disturbed early on Thursday morning by the discovery that a man had been discovered close by the stone quarry above the city, hung by the neck and quite dead. After the numerous canards of last winter and the fruitless search for bodies for miles in the vicinity of the town, the majority were inclined to treat the story with suspicion, and it was not until the arrival of gentlemen returned from the examination and confirmed the statement that credence was given to the rumor. We visited the place at 9 o'clock and found it correct. The place of execution was on a gentle inclination by the roadside a little ravine back of the stone quarry. The man was Charles Wilson, at one time a sergeant of Slade's; and employee of Wells, Fargo & Co. for a short time last winter. He joined Hunter's (?) of the militia, and was recently mustered out on the expiration of his term of enlistment. He was of medium size, about thirty years of age, and has been west of the Missouri for several years. At the place of his execution there was a number of small poles, a portion of a right fence once enclosing the spot. Three of these, perhaps twelve or fifteen feet in length were tied near one end with a rope terminating in a noose. When elevated, it formed a trip of about ten feet high, and on this primitive and frail gibbet the body of Wilson was dangling, his feet just touching the short grass on the stony bank his arms pinioned behind him, his neck broken, and a small placard on his back labelled, "VIGILANTES."

He was fully dressed, even his hat not having been removed, his pockets untouched, and his blanket for he had evidently been called up in the night and thrown it around his shoulders, was lying close beside him, apparently as he had thrown it down when he was ordered to mount the block. His death must have been almost immediate, as the neck was broken and no contortion of the face evinced any struggle. There he had gone in the darkness of the night, summoned by that unseen, mysterious agency evoked in years gone by, by the lawlessness of the Road Agents, and there while the city lay slumbering, Justice was administered by a court that has no technicalities, and whose only aim has been the punishment of the wicked and the protection of the innocent. We have been unable to ascertain as yet, the history of this man, previous to last winter. He was employed as "helper" on the overland line between Snake river and Pleasant valley, in March last. While so employed, during the high waters, he drowned some of the stock, and treated the passengers so badly that complaint was made to Mr. Taylor, Superintendent, and he was discharged. Since mustered out of the volunteer service he has been drinking hard; importuned the stage company for employment, and, on being refused, has made terrible threats of vengeance. He was taken down by the Coroner, at 3 P. M., placed in a coffin, and decently interred by the side of five Road Agents, on the hill opposite the city.

This is the first execution by the Vigilance Committee since James Daniels was hung in Helena in the autumn of 1865. The following is the best authenticated of the numerous reports in circulation at this writing: Charles Wilson was one of a secret organization, numbering thirty-five active agents and over one hundred accomplices, sworn to a certain purpose. It included robbery, incendiarism and murder. They are fully organized, awaiting the concentration of their forces, and the shipment of treasure overland, after the steamers have all gone, to accomplish their purposes. They have in view also the robbery of certain stores in Virginia, to be accomplished by fires and burglary, and have spotted for murder several prominent citizens, whenever an opportunity offers. This organization has been under the close espionage of the Vigilanter, and every active member is known. On the night of his execution, Charles Wilson sworn into the organization one detailed for the purpose, to whom he imparted all necessary information, and when arrested, made full confession of their organization and intentions, as above, which had been known by the Committee previously. The leaders of it are desperadoes of the worst character, and they must now abandon their schemes, or cope with an organization more powerful than they.

Spirit of the State Press.

The Corvallis *Gazette* is devoted mostly to temperance literature. But it finds time to talk a little about local matters and to puff Yaquina Bay. It is determined to make the Bay the shipping point for the southern part of the Willamette valley. The *Gazette* may be relied on to continue a friend to Yaquinunnd a foe to all fields stronger than the limpid waters of the Willamette.

The Jacksonville *Sentinel* earnestly urges a modification of the Revenue Laws, so as to relieve the people of a portion of the burden of taxation. On this subject it says:

The nation is able to pay, and she is bound by every principle of honor and justice to satisfy the demand against her Treasury. But is it necessary, in order to preserve the nation's faith and nation's honor, that the labor, commerce and manufacturing interests of the country should be loaded with so heavy a weight of taxation? Plainly not. Then why this exhausting taxation? It is simply because there is a foolish notion that this generation ought to pay off the immense debt created by the rebellion. Is this notion or opinion founded in justice? We think not. This generation endured all the sacrifice of the war. This ought to be enough for one generation. If it were true that this conflict was waged for this generation alone, then there might be some justice in the notion. But this generation had no greater interests in the struggle than succeeding ones have; hence, they at least ought to bear some of the burdens made necessary for their benefit.

The *Columbia Press* is, of course, fiercely Democratic. In the following language it calls upon the "Democracy" to "strike now":

Now is the time for action. Now should every Democrat—every true friend of his country—every enemy to misrule, tyranny, taxation, oppression, poverty and poverty makers—put on the harness and work with a will. Emblazon on your banners, "Victory! Death!" Death to tyrants and victory to friends and supporters of constitutional liberty. Make no hurried or doubtful charges. Swear by the old Democratic faith. Tell to the tyrannical, negro worshipping Rumps that you opposed the infernal war for the enfranchisement of the negro, and that you have no regrets and no compunctions of conscience. Wash your hands of the blood of two millions of your brethren, whose bones whiten the fields of the South, and swear that the Godless, fanatical fountain that poured its victims from the North to a certain grave in the South, shall be forever dried—that its waters shall cease to flow. Be prepared for the conflict. Ballot or bullet, let the result be obtained, and a real peace will bless our land.

This, it must be owned, is somewhat truculent and warlike for the "peace Democracy."

The Lafayette *Courier* is altogether too inane to be worthy of notice. It is feebly piping against "the Congress disunion party," and says nothing but what might have been better said on the stump by the "old wheel hoss of Yamhill."

Abbott of the Albany *Democrat* has nothing to say about "long-headed, kinky-haired niggers" in his last issue, from which we infer that he has at least partially recovered from his fright about matrimonial alliances between that race and the Democracy. But he has found a theme which he discourses upon most enthusiastically. We let him speak for himself on this sweet milk topic. Relating what he saw at the County Fair, he says:

Jesse Parrish, Esq., exhibited a milch cow, 4 years old, of the common or scrub stock, which last spring gave seventy-two pounds of good milk for ten days consecutively! This is the hardest milk story we remember ever to have heard; and if Mr. Parrish did not possess a character for truth, and if he were not able to prove his statement by another credible witness, we should not swallow it at all. Of course a blue ribbon, consequently, attached to her horns, gaily fluttered in the breeze. We tried to buy this cow, but Parrish invariably replied—"No sir-ee!" We don't blame him. Were she ours, we would freeze to her, too; for he says that, in addition to being a good milker, she is kind, gentle, comes up well, eats slop, loves him, never kicks, is not breachy (and of course don't need to have her eye-lashes cut off) and keeps her nose clean! Hurrah for Linn county!

The *Herald* is still discussing the resolutions of '98, and "dividing hairs betwixt the south and southwest side" in the effort to show that they do not assert or imply the right of the secession. The old record of the party is giving its organs a great deal of trouble, and to defend it is about as difficult and burdensome as packing sand at Fort Stevens or Alcatraz.

The *Guard*, a Democratic paper published at Eugene, thinks with one of its brethren who recently made a speech at Portland, that the time is near at hand when the "abolitionists will have to hunt their holes." We present a specimen of the sort of literature it deals in, and opine that every reader after perusing it will be puzzled to know why such a paper is not called the *black Guard*:

So sure as the God of justice reigns, the Democratic party—the party of the Constitution, of law and justice, humanity and right—will inevitably succeed in reclaiming the government from the hands of the traitors, thieves, tyrants and anarchists, into whose hands in an evil day it fell. All the prayers, pleadings and adjurations of the leaders, pimps and whipperain of Radicalism cannot avert the righteous doom which is hanging over the heads of that seething, putrid mass of corruption. The Radical leaders can already read the "handwriting on the wall," and they well know that the time is near at hand when the violators of the law will be tried and punished by the law when place, position or influence will not screen the guilty, but strict, rigid and impartial justice will be meted out, as well to the strangler, murderers, incendiaries and public plunderers in high places, as to the petty thieves, perjurers, pimps and mobites who were their tools.

his is rather an extra piece of "fine writing," as well as superior Democratic "argument." If this writer will cultivate his intellects by studying Brick P. and Beriah B. as models, with such light reading as *One Hazeppa* and the *Police Gazettes* for ornamentation of style, he may soon become a "leading Democratic editor."

The *Chronicle* has a scheme whereby it can make "thirteen hundred and forty-two dollars and eighty-seven cents" in two years by investing $400 in Government bonds. On this state of facts it demands the immediate payment of the nations' debt in greenbacks,—or repudiation, it doesn't care a fig which. Now we are of the opinion that if the arithmetician of the *Chronicle* believed he could really make the thirteen hundred and odd dollars and cents in so short a time by such a method, he would go about it at once, provided he could borrow the necessary $400 with which to commence business. If he had faith in his figures he would rather speculate than republish. The trouble with the *Chronicle* man is that he is writing for buncombe,—that he first takes his position and then manufactures proofs to sustain it. Perhaps he really believes that the existing public debt is increased by speculations in bonds. On the same principle he would no doubt also hold that the amount of gold and silver in circulation is augmented by its continual exchange in the course of trade.

The *Unionist* demands the impeachment of Johnson. It says:

We accord to Mr. Johnson the right to oppose the passage of these laws, but as soon as they became laws, then it became his constitutional duty to see that they are "faithfully executed." In this he has failed, and because he has ceased to take care that the laws be "faithfully executed," and because he not only fails to execute the law, but punishes subordinates in office who will not follow his dicta in preference to the declared law of the land, and because he has manifested a determined and dictatorial despotism and intention to prevent the laws from being faithfully executed, we see no safety for the nation except in his immediate removal. An executive officer that boldly and persistently refuses to execute the laws becomes either a public nuisance or a dangerous tyrant, and in either case his removal from office becomes not a matter of party choice, but one of public necessity.

Seventh Annual State Fair.

[FROM OUR OWN REPORTER.]

SALEM, Oct. 9th, 1867.

The attendance to day seems to be double that of yesterday, and the Pavillion, that was but scantily filled this morning, teems with thousands of articles, many of which would be No. 1 anywhere. It is pleasing to note the decided improvement of the present upon the last Fair. The display of

VEGETABLES

is decidedly good—everything from huge Yankee pumpkins to string red peppers, squashes of all sizes, forms and quality; onions, beets, carrots, parsnips, turnips, potatoes, Irish and sweet (the sweet potatoes grown in Marion county), of the finest varieties and of the best quality. Some of the samples are huge. There are some fine samples of celery, an excellent vegetable, as yet but little grown in Oregon. Of

GRAIN AND SEEDS

there is also a good display. There is a fine collection of garden seeds, grown in this State, also, clover, grass, flax and millet seed, all of excellent quality of grain. The wheat is unsurpassed. Oats, buckwheat and barley are good, and the Indian corn is better than has been exhibited at any previous fair.

The dairy is only tolerably well represented. The samples of butter and cheese are good, but there is little on exhibition.

There are some samples of toilet and olive soap, but the best thing connected with it is, that it is made of *rancid butter*. As this article abounds in Oregon, those gentlemen will doubtless do well. It is to be hoped they will get it *all* and turn it into soap. Very good samples of soft soap and potato starch are on exhibition; also, a sample of lard oil made by McCord & Co., of Albany. These gentlemen will do the State a double service by consuming the stale lard and *strong* butter, and turning them into valuable oil and soap.

A large show-table is covered with choice collections of dried and canned fruits, cake, jelly of all descriptions and hues, pickles, wines, etc., etc. Soon after the Awarding Committee had tied the blue ribbon on a bottle of T. McF. Patton's splendid currant wine, your wearied reporter happened along and found a glass of it very refreshing. On the same table are exhibited specimens from the Sandwich Islands, and among the rest specimens of pulu. I understand that upon the return of Mr. Patton from the Islands, a root of this plant was presented to Secretary May, who attempted its culture but signally failed on account of the drouth.

The annual election of officers of the State Agricultural Society was held to day, and resulted as follows:

For President—A. J. Dufur, of Multnomah county.

Vice Presidents—J. G. Baskett, Polk county; W. J. Herron, Marion county.

Corresponding Secretary—A. C. Schwatka.

Recording Secretary—R. M. Watts.

Treasurer—J. H. Moores.

Managers—H. Bundy, Benton county; H. G. Hadley, Lane county; John Minto, Marion county; Joseph Magone, Clackamas county; J. H. Douthit, Linn county; T. G. Nayler; Washington county, T. Newby, Yamhill county.

Honorary Vice Presidents—A. J. Thayer, Benton county; J. Barrows, Linn county; H. N. V. Butler, Polk county; Thomas Cross, Marion county, Wm. Elliott, Clackamas county; Thomas Smith, Douglas county; J. Scroggins, Washington county; L. L. Rolund, Wasco county.

The election was spirited and warmly contested between the "Farmers' and Mechanics' Ticket," and the "Farmers' Ticket," ending in the success of the former.

At 10:30 the opening address was delivered by the President, to a large audience. It was able and eloquent, and embraced much valuable matter.

The grand parade of animals for premiums came off at 10 o'clock. The number of cattle, horses and mules was large, and the animals generally good. Many of them are very creditable. The thoroughbred Durham and Devonshire cattle are worthy objects of pride to our State. Two calves belonging to Mr. Cross, of Salem, 9 months and 1 week old, were weighed, the largest weighing 814 lbs, the other 722 lbs.

A large number of superior sheep are here, among which are the Spanish, French, Australian and American Merinos, Cotswold, Sussex and Southdowns. The Spanish and French Merinos are odd looking creatures. The hide seems to be too large for the sheep, and lays in folds all over the body, thus giving a much greater surface for the production of wool, which is very fine and beautiful. The Cotswold and Sussex are large, handsome sheep, and bear very fine wool. It is gratifying to see these fine breeds of sheep introduced into our State, where wool growing is likely to be both profitable and extensive.

The exhibition of swine is very good, embracing several fine breeds. Among the number is a large breeding sow, weighing 700 pounds.

The match game of base ball between the Pioneers of Portland, and the Willamettes of Salem, resulted in the triumph of the Pioneers. Mr. W. T. Wythe of Salem, a son of Dr. Wythe, received a serious injury by the ball from the bat, striking him and breaking his collar bone. It was done by the first stroke of the ball. He is one of the best players of the Willamettes, and was much missed.

The sweepstakes trotting came off at 2 P. M. to-day. Distance, 5 miles, and was won by Nellie, belonging to D. B. Baker. She ran 5 miles in 15 minutes and 57 seconds. Premium, $100. At 4 P. M., racing between Oregon bred colts came off. One mile heat. Premium, $50. The race was won by Reed's colt; running one mile in 2 minutes and 6 seconds.

The weather has been very fine, and the day made merry by the din of a thousand wheels, dashing over the streets, the loud huzzas of the excited spectators of the races, the unceasing hum of thousands of voices, and smiles of beautiful women.

Receipts of the day from entries and at the gate, $1,348 75.

At the adjourned meeting of the Pioneers of Oregon this evening, the following officers were elected:

Hon. J. W. Nesmith, President.
Hon. M. P. Deady, Vice President.
Capt. Medorem Crawford, Secretary.
I. N. Gilbert, Treasurer.

Committees were appointed for the purpose of gathering information, statistics, etc., relating to the Pioneers.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Oct. 10.—The squatter difficulties culminated in a riot last night, during which one man was killed and three others wounded. It appears that John Center and Samuel Crim, have for a number of years employed undisputed possession of a piece of land on Howard street between 22d and 23d streets, which since the recent decision of Judge Field has been squatted upon by various parties, among whom is Supervisor Reynolds, who erected a shanty and fence and has been holding possession of the land by armed force. Last night Center and Crim with a force of about 70 workmen and armed guards, started in to drive the Squatters from the premises and to burn their shanties and fences. They proceeded without trouble until 10 o'clock when they reached the line of Reynolds' fence when some man alleged to have been Reynolds forbid their crossing the line. A quarrel ensued during which a gun was fired at the guards by the attacking party. The shooting became general and lasted for several minutes. About forty shots were fired.

Peter Bradley, one of Center and Crim's party, was shot through the head and killed. John Flannery and Andrew Thompson, of the same party were severely wounded. Thomas Coleman, of the Reynolds party was shot in the ankle inflicting a severe flesh wound. The Center party retreated leaving the others in possession. The persons holding possession of the shanty were Thomas Coleman, Ike Harrington, John McCarty, J. H. Reynolds and Richard Shultz. They were all arrested on charges of murder and have been admitted to bail in the sum of $10 000 each. Center and Crim were arrested on a charge of assault with intent to commit murder, and gave $40,000 bail each.

The leading local fire insurance companies are making arrangements to commence a war of extermination on the small fry companies that have been lowering the rates of insurance from time to time. The Pacific Firemen's Fund and Union companies will add their quarterly dividends to their surplus fund account for the purpose of strengthening themselves for the fight. Pacific stock declined about 12 per cent.

The Panama steamer this morning carried 32,000 lbs of wool in transit to New York.

NUMBER ENCOUNTERS VARIOUS DIFFICULTIES.—Our friend C——n is a jokist; but when he starts in to tell the square truth, he never jokes. C. took a romantic notion into his usually matter-of-fact head, the other day, to go a hunting. It was the most unfortunate thing for him that he could have thought of just then, as the following relation of mishaps will show. It is the fashion to go hunting with a gun and dog—not that these young fellows kill any more game for having such appliances—and to go in a boat to some island, either up or down the river. C. borrowed a gun and then he borrowed a boat. Before he cast off from the wharf, he lost overboard an oar lock and had to go to a smith and get a new one made. It cost him two dollars, which he probably borrowed, and then C was broke. His detention was, however, fortunate in one respect; for, while he was waiting, he bethought him that he hadn't yet borrowed a dog. He went and borrowed a dog. C. and his borrowed gun and his borrowed dog then started all together in their borrowed boat. The wind blew that day. The waves invaded the boat. The dog thought it no good place for a borrowed dog, and so he jumped overboard and swam ashore. C. followed him as rapidly as the tide and waves and much bailing would permit; rescued the dog to possession again, and finally, through many perils, reached the island upon which it is fashionable to hunt. The first thing the party did was to seize a litter of pigs by the ear. (This is C.'s language. C. is of Irish descent.) After kicking up a rumpus which C. is certain could have been heard five miles, the dog was induced to let the pigs go. The pigs went. In a short time, C discovered three unsuspecting ducks resting their bosoms on the bosom of a quiet inlet. The dog discovered them about the same time. The dog went after them at once, with a terrific bow-wow. The ducks quacked, and rolled, to another and more secluded inlet. C. declares upon his honor that he did not shoot the dog on the spot; but he did pity his ignorance of theories of hunting. C. went on, and in the course of his perambulations, found a slough to wade during the passage he "stirred" his leg, and he said something drap, ker-splash. As the dog went around, it could not have been him. C. picked himself up and went and sat down on a log to rest and dry. The next thing C heard was a thundering rush behind him which thundered nearer and nearer till common prudence suggested to C. to look about him. Seeing a scrub bull with horns and tail elevated and only about three seconds distant, common prudence again suggested to C. to get behind a neighboring tree. He got. The dog came to his rescue; the bull retired, and C. scouted, making a "home run" to the fence in the quickest time ever seen on that island. On his way home, saving shot nothing, C. discovered a duck in easy range. He fired at it, forgetting that he had absently put in a second charge. That shot knocked down a duck and somebody else. The duck, a little scrawny black one, died. C. didn't. He came home, and it is needless to say he came tired, hungry and cussin'. He swears he is not infatuated with duck hunting. Guess not.

THE APPLICANTS AT LAW.—John Wesley is well known to the habitues of the Police court room, as a very efficient sweeper and duster. A rigid Good Templar, after his Sunah fashion, and a sort of executive regulator of the Newsh Rates city in the neighborhood of Portland. John went a few weeks before the Municipal troubles began, to spend a few weeks in the quiet forest retreats bordering upon the hamlet of St. Helens. When John came back, a week ago, he discovered that his castle had been invaded, the doors and the walls thereof broken down, his buck-saw, axe and etcs., feloniously removed. A day or two since, while looking about to see what he could see, he saw his saw in the hands of a Siwash policeman known as Jim. Simmons. John demanded it of Jim; Jim refused; John strenuously insisted; Jim beat the Irish out-pale of his temper, and indis reetly as I'd into John, on his muscle. John, as a meek, christian gentleman should, turned first one cheek and then the other, and finally, getting enough of that, turned away, leaving his garment with the bellicose Jim. John is civilized. He went straight to a magistrate, got out a warrant and had Jim arrested on a charge of assault and battery. The trial will occur to-day before Justice Larsen. Jim, for a defense says, that John, since he got to be a Deputy Marshal, is putting on a thundering right too many Boston frills, and he can't stand it. Evidently, Jim does not properly appreciate civilization.

ROCK STATE ROCK.—Mr. Slaughter, one of the owners in the Boomer Ledge, in Silver Hill District, Idaho, exhibited to us, yesterday, some specimens of rock taken from the ledge at the depth of sixty feet. It has the appearance of being very rich, sulphurets and native silver being visible all over it. Mr. S says it assays $1,500 to the ton. The ledge is situated about thirty miles north of Idaho City. The company are making an effort to get a mill and go to crushing. They have every encouragement that capital for the successful opening and working of the mine, will be placed at their disposal in the spring. There are quite a number of ledges in this district, which are known to be rich in silver. It strikes us, judging from specimens of rock and bricks, from various parts of the territory, from ledges discovered or opened this year, that Idaho presents the most promising field for the investment of capital, now open on the Pacific slope. But for the wild-cat operations of the past few years, by which eastern capitalists have been swindled, Idaho could now get all the money she could possibly want for the development of her great mineral wealth. The tangible evidences of the existence of ledges, fabulously rich, are plenty; but as a burnt child dreads the fire, so capitalists are afraid of offering their money till they can be doubly assured of the honesty of the ledge owners.

PROGRESS VS WILLAMETTE.—Our special reporter at the State Fair, sends us the following report of the game on the 9th between the Pioneers of this city and the Willamettes of Salem:

QUICKSILVER IN THE MINES.—In this country greenbacks are bought and sold at about the same price as in San Francisco. In some portions of the mining regions where gold dust is the most common currency, coin being scarce, the introduction of greenbacks has all along been encouraged, because of their greater convenience as a circulating medium. So great are the advantages of legal tenders over dust, that their circulating value has been kept far above the rates in New York, San Francisco, or here. In Idaho, within the last year, several public meetings have been held for the purpose of fixing their circulating value. For a long time, in Owyhee, they have been current at 80 cents, nearly twelve and a half per cent. more than they were worth here. The Avalanche, of the 5th, mentions the proceedings of a meeting which resolved to reduce the price to 75 cents. Debts contracted prior to October 1st, to be paid in legal tenders at 80 cents.

HEBREW LADIES' BENEVOLENT SOCIETY'S BALL.—A few days since we noticed the fact that the Hebrew Ladies Benevolent Society of this city would give a grand ball at Oro Fino Hall on the evening of the 21st the proceeds to be devoted to charitable purposes. We learn that the preparations are in a forward state and that everything gives assurance of a successful entertainment both socially and financially. The ball will open with a few orchestral pieces by the Aurora German band, which has been engaged for the occasion. This will be followed probably, by an oration; and then will come the dancing. We acknowledge the receipt of a complimentary ticket. We learn, incidentally, that the masquerade ball set for the 31st and for which the Benevolent Society's ball was postponed, will occur about Christmas, at Turn Verein Hall, under the auspices of the Turn Verein Society.

GEORGE R. CATON.—In the dispatches published yesterday morning is an account of an attack upon, and injuries done to George R. Caton, a special policeman of San Francisco. This is probably the same George R. Caton, who was some years since a resident of Salem, a brother of W. F. Caton. In 1863, he was appointed, conditionally, a 2d Lt. in the Oregon Cavalry for the recruiting service; was stationed in Salem for some time; cut up more unselfishly antics than any other man could have thought of; telegraphed to Gen. Alvord, asking him to declare martial law in Marion county, was finally ordered to Ft. Vancouver and dismissed the service. Since then George has been an adventurer, and now he turns up as a metropolitan special policeman.

WASHINGTON COUNTY.—Mr. John T. Scott the Assessor of Washington County furnishes us the following information in relation to the property and population of that county. The real estate is assessed this year at $645,420; personal property at $425,710; total valuation of property, $1,071,130. The number of non-resident taxpayers is 153, paying taxes on property valued at $130,398. The number of resident tax-payers is 847. Number paying poll-tax, 626. In 1866, the real estate of the county was assessed at $621 700; and personal property, at $396,910; total, $1,018,100; increase since last year, $53,030.

OMITTED PROCEEDINGS.—In our report yesterday morning, of proceedings of the Council, we inadvertently omitted a resolution offered by Mr. Ripley, as follows:

Resolved, That the auditor be and is hereby directed to draw warrants upon the appropriation for the improvement of streets in front of public property, to pay assessments for improvement of Fourth street, $430; do., Second street, $45.

The resolution was adopted.

WALLA WALLA FLOUR.—Since the recent rise in flour, we notice the arrival of small lots from Walla Walla. Some time ago when flour was up, the Walla Walla mills sent down considerable amounts of flour, some of the last of which, coming just as flour dropped again, was not much of a speculation. We wish the Walla Walla operators better luck this time.

MINERS COMING.—The *Cascade* now upon connection days, brings down large numbers of miners from Eastern Oregon, Idaho and the northern mines. Yesterday there must have been from eighty to one hundred of them. Most of these with whom we have conversed, bring "specie" with them.

KLAMATH FEVER.—The *Sentinel* says. "Mr. T. G. Owens informs us that everybody out on Butte Creek is getting into a fever to move out into the Klamath Lake country." Everybody will be in big luck, if they dont get into a worse fever by going.

RUSSIANIA.—The following is a compilation of very fair plays on our late "acquisition." It will be seen that it has some advantages not mentioned by either Seward or Sumner:

It is a nice country.

The following gentlemen are already talked of there as representatives to Congress: John Frost, Esq., A. V. Snow, I. S. Berry and Ivan Smithski.

The country has always been celebrated for its furs; a well known agriculturist asserts that fir trees may be seen growing there in the open plains in the summer months. Congress is now deliberating upon the subject of sending such resolutions as have to be re-furred to this region for that purpose, as it would be a great saving of expense.

The fisheries cannot be too highly appreciated, indeed, Secretary Seward made a "pretty kettle of fish" in buying the territory. There are some species of fish that have not been mentioned—the *sauger-a-melt* there in summer, and the species of "suckers" that will soon manifest their presence, now that the United States has its lines round the coast.

Trade is also good; the former possessors did a *rushen'* business.

The election returns will always come in promptly, the inhabitants live so near to one of the poles.

The climate is delightfully mild, for it is reported that the Governor wears a fur overshoes in traversing the territory.

Since the ratification of the treaty stoves have gone up; and, as it was reported that hardware generally would become good property, many politicians have had hopes of their consciences, which are noted for hard wear.

It is thought that a standing army will have to be maintained there, as the Russians report slaying among the natives all the year round. The army will be uniformed in frieze.

Esq Maux, a Justice of the Peace in some of the extreme upper counties, has petitioned for them to be set off as a new State, to be entitled L. S. (Place of the seal.)

An Investigating Committee from Congress will start immediately, to ascertain if it is the place of the "green seal," as it is reported that water is so scarce the people find *rain dear* there.

Notwithstanding but few heated arguments among the people, great coolness often prevails in this country between friends, the principal point of difference being the freezing point.

Travelers represent the past season in the territory as very gay; the principal halls of the season, snow balls, were a round of enjoyment to the professors, and the acknowledged hits of the season by those who came in contact with them. The upper provinces play their cards well, and "old sledge" is popular.

The great seal of the territory will be furnished at any time by the inhabitants, who have seals enough of all sizes for any purpose.

COUNTY COURT—MARQUAM, JUDGE.—Proceedings of Thursday, Oct. 10th:

James L. Daly vs. Bennett & White; judgment against plaintiff for $15 and costs of the suit.

A. J. Remington vs. B. Stark; judgment against defendant for $100 and costs of suit.

A WEIGH-TY GAME.—The reporter of the *Record*, mentioning the game between the Pioneers and Willamettes, says: "Finally, the base ball got under *weigh*." etc. The Willamettes seem to have found that it *weigh*-ed too much for them. That's what's the matter.

WILLAMETTE FREIGHTS.—The *Alert* yesterday, brought down from Oregon City, 440 bbls flour, (in barrels, for Savier & Co.) 40 sks feed, 10 bales woolen goods, 1 case do, 8 bales merchandise, 11 sks fruit, and 60 boxes spice.

A PORTLAND MADE BUGGY AT THE FAIR.—A buggy made at the shop of W. H. Cooper & Co., of this city, on exhibition at the State Fair, has called out special complimentary mention by the *Record*.

TREASURY RECEIPTS.—Wells, Fargo & Co., received yesterday from the Columbia, $20,000 in treasure.

STATE FAIR.—We are quite sure that all who go to the State Fair at Salem will go to Barman Bros., on Commercial street, for their custom-made clothing.

The Proprietor of the LAFAYETTE RESTAURANT takes pleasure in informing his friends and the public in general, that from this date, and during the oyster season, he will keep his establishment open at night until 2 o'clock A. M., and will serve Oysters and Suppers in every style.

Letter from Umatilla.

UMATILLA, OGN., Oct. 7th, 1867.

EDITOR OREGONIAN:

I noticed in the Lafayette *Courier* of the first instant, an article in which the editor uses some low flung epithets against me, because I (after his violating the postal laws repeatedly, by sending his paper through the mails to other than actual and regular subscribers, without pre-payment by postage stamp), returned one of the refused papers to the P. M. at Lafayette, (where he mails them) and cited the P. M. to the law and regulations requiring publishers of newspapers, magazines, etc., to take and subscribe to a certain oath required therein, thereby calling his attention to the necessity of the editor and publisher of the *Courier* taking and subscribing to said oath.

I want the editor of the *Courier* to understand that I know my duty as postmaster, and shall do it, even if it should fall heavily on some thieving editor or publisher who would covertly introduce his papers into the mails without pre-payment by postage stamps when sent to other than actual subscribers. But no matter; we all know the editor of the *Courier*, and consider the source, and think we have heard something bray before.

Wonder if in his wisdom he could tell who took the coin out of the county school treasury of this county, and put in its place greenbacks at par, when they were worth only forty-five cents in coin on the dollar?

Wonder if he could tell what County Judge of this county proposed to the then acting Sheriff to go to Walla Walla and get half a dozen chairs for the county, and bring said County Judge a load of lumber and charge the county enough for hauling the chairs to pay him for hauling the whole load.

I have stooped to notice the braying of this editor through his little 7x9 sheet, in order to let him know that I read his squib, but intend this shall be the last; for I think that any man of even common respectability has to stoop lower than is becoming, to notice him.

DR. HOSTETTER'S STOMACH BITTERS.—The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties, and it is recommended to mothers, enfeebled by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crisis of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants.—Sold by all Druggists and dealers everywhere.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influence more potent than the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.*

The Difference.

Men lose their ships, the eager things,
To try their luck at sea,
But none can tell by note or count
How many there may be
One turned east, another south—
They never come again,
And then we know they must have sunk,
But neither how nor when.

God sends his happy birds abroad—
"They're less than ships," said we,
No moment passes but He knows
How many there shall be.
One sunbeath high, another low,
With just a bird a flight care—
If only one, perchance, doth fall,
God knows it when and where

Corruption of Johnson's Administration.

The New York *Tribune* of the 13th September has the following

Reconstruction has been weary, tedious, uphill work. We have had every obstacle—the Executive against us; the Judiciary doubtful, a sullen, vindictive sentiment in the South encouraged by the President's Copperhead dalliance. As it is now, we may consider the work ended unless the cunning of Black or some other of the President's advisers may find a new objection, or unless these bad men in their desperation should attempt to seize upon the machinery of Government and hurl Congress from power To reconstruct the South with the President's aid would have been a difficult and delicate labor. To reconstruct it in the face of his enmity is one of the most hazardous impossibilities ever imposed upon a people. So with the tariff and the finances. Here are two subjects demanding the gravest attention. We have a revenue system based upon the artificial and extreme necessities of war. A healthy management would have aided us in reducing the debt But how have the finances been managed? What has Johnson done toward executing the special laws of Congress? Take the internal revenue system. We believe that the President has wasted millions upon millions of dollars in the collection of revenue. For political reasons he removed last Summer a majority of the best Assessors and Collectors, and appointed men without character or record. Men protested, but the Philadelphia Convention was necessary—men and position were needed—adventurers were crammed into places—advancement who feared rejection by the Senate and must needs feed ravenously on the treasury. What do we now see? In whisky alone $150,000,000 of taxes are lost to the treasury every year the whisky interest, created and permitted by President Johnson's wanton neglect of duty, daily takes nearly half a million of dollars from the Treasury. Yet this man talks of executing the laws! Execute the laws! Here is a law—revenue, so badly executed that but one-sixth of the whole amount is collected. It is plain to all men that he has fostered a gigantic system of fraud, systematized, far-reaching and unbeaten! We find no punishment, no earnest effort to punish. Even the *World*, which has the impertinence to call Johnson's Cabinet "Republican" at this" Administration must justify itself to the country or be overwhelmed in history. We say disgrace has come. The President other could execute this law or he would be impeached. If helpless, he should have asked Congress for more power. Unfortunately, it has never been in him that he had anything to do but make proclamations and denounce the "Radicals" The President whose favorite amusements are "swinging around the circle," "putting down" and dancing along "the war path" can scarcely be expected to devote himself to saving $150,000,000 a year. And so the money goes, and fraud reigns, and we have the spectacle of His Excellency running from one end of the country to another levying taxes and—incidentally—tributes to sustain the party and principles of *Intelligencer*. It was bad when Buchanan and Black were in power; now that Johnson and Black have combined it is infamous beyond words. Well may the leading Democratic newspaper of the country dread the President who is "overwhelmed in disgrace."

The Republican party made laws of "reconstruction and freedom. Some of them have been defeated—there were not been executed negligently. Yet the principles are embodied, and an attempt is made to warp and pervert the country not only responsible for the shortcomings but—God help us—for the crimes of the President. This is the returning tide that is to sweep us out of existence and ruin the country over to the unchecked control of the worst men who ever aimed at power! Let us be vigilant, vigorous and not warily, and we shall be defeated—unless we abandon our principles and agree to be defeated. We do not believe it. We did it would only make duty clearer The fate of the country is the party of progress and it must be saved. The organization must be perfected that progress must be asserted with more vehemence and the lines of demarkation must be drawn sharply. The only pass-word for the present must be the overthrow of Johnson's Administration. Let it come over the country like an eclipse. It is the work of a time and falsehood and cunning—a President whose history men will hear with their children, and around which will only unprincipled adventurers Nothing but produce harvest, fever and ague. The atmosphere that surrounds him—the Cabinet is so dense and foggy with corruption, malignity, insincerity and—all that is—horror.

The Constitution.".

In his speech at Richmond, on Thursday, designed to [illegible] Virginia in political [illegible] he said that "we all owe allegiance to [illegible], and at cost oath is therefore unconstitutional." This sort of logic is characteristic of the [illegible] impudence which marks the whole [illegible]. Wise himself repudiated him [illegible] the country. He took up arms with the [illegible] and declared the position of a [illegible] in his case. And after stealing, burning [illegible] and forcing those who refused like him to destroy [illegible] allegiance," finding himself their [illegible] he comes back with superstitious arrogance [illegible] that he shall not be held to a performance of his duties as a citizen by any test because so naturally owes fidelity to the Government

Wise had much [illegible] the "rights of the South under the [illegible]" What Constitution? The [illegible] the Slaveholding Confederacy has been pretty thoroughly obliterated by the [illegible] of the United States which has undertook to destroy, provided for [illegible] Wise and his colleagues, no other rights than the "right" to be hung. Whatever else may enjoy, they receive, not as a "right" but as a gift, for which they are indebted to the forbearance and magnanimity of the North. They would look much better in testifying their gratitude for this mercy, than in criticising and admonishing the policy of those to whom they are indebted for it.

If we were very earnest in denouncing the legislation intended to enfranchise the negroes, and declared repeatedly that "this is a white man's Government [illegible] that nonsense is about "played out" to say [illegible], brass more expressive than euphonious—this is not a white man's Government—not a black man's Government, but a Government of the people, by the people, for the people It knows neither color nor condition And as the blacks are by the laws an integral portion of the people, they have a right to participate in the direction of political affairs, to the extent of their numbers and ability. That is the true situation; and whether Wise and his fellow rebels like it or not, they will do well to make the best of what they cannot certainly change Even if, as in Tennessee, the loyal blacks of Virginia should chance to carry an election, the people will be better satisfied to know that such is the fact, than to see all civil power returned without reservation into the hands of the man like Henry A. Wise, who plotted treason and inaugurated the war.—*Albany (N Y.) Journal.*

EXEMPTIONS.—The Bankrupt Law allows Bankrupts to retain and hold against all creditors, "household furniture and other necessary articles, in value not to exceed $500, and in addition, to those having a wife and children, 1 cow, 10 sheep, 2 hogs 25 bushels of charcoal, 2 tons of stove coal, 200 pounds of beef, 200 pounds of fish, 6 bushels of potatoes, 200 pounds of wheat flour, 2 cords of wood, 5 tons of hay, 10 bushels of turnips, 10 bushels of corn, or the meal therefrom, 20 pounds of wool, 20 pounds of flax, 1 sewing machine, 1 pew in church, and the wearing apparel of the whole family.

The plan of a college at Springfield, Mo., as a memorial to General Nathaniel Lyon, who was killed in the battle there in 1861, is likely to be realized, and a preliminary school will probably be started during the coming fall. Ex-Congressman John R. Kelso has offered to provide the necessary buildings for the school

A PROPOSITION.—I'll teach you to play pitch and toss! I'll dog you for an hour, I will." "Father," instantly replied the incorrigible, as he balanced a penny on his thumb and finger, "I'll toss you to make it two hours or nothing."

DRUNKEN.—It is a fact that our city ordinances do not make the fact of drunkenness a cause of arrest. The fault should be speedily remedied, and no doubt, will be.

Prentice says the Californians have had another earthquake; but it took no improper advantage of them—it gave them a fair shake.

WOULDN'T OWN UP!—Joe Stetson was a wild rollicking fellow, who spent most of his time in drinking and spreeing, while his wife, Polly, was left at home to do the chores. Upon a certain occasion Joe left home to be back, as he said, that night. Night came, but Joe did not. The next day passed, but, about sunset Joe came up in the worst condition imaginable—his clothes dirty and torn and one eye in deep mourning, and his face presenting more the appearance of a piece of raw meat than anything else. Polly met him at the door, and noticing his appearance, exclaimed.

"Why, Joe, what in the world is the matter?"

"Polly," said Joe, "do you know Jim Andrews? Well, him and me had a fight."

"Who whipped, Joe?" asked Polly.

"Polly, we had the hardest fight you ever did see. I hit him and he hit me, and then we clinched, Polly, ain't supper most ready? I hain't had anything since morning"

"But tell me who whipped, Joe," continued Polly.

"Polly," replied Joe, "I tell you you never did see such a fight as me and him had. When he clinched me I jerked loose from him, and then gin him three or four of the most sufficientest licks you ever heard of, Polly, ain't supper ready? I'm nearly starved."

"Joe, do tell who whipped," continued Polly.

"Polly," replied Joe, "You don't know nothin' bout fighting'. I tell you we fought like tigers; we rolled an' tumbled—first him on top, then me on top—then the boys would pat me on the shoulder and holler, Oh, my! Stetson. We gouged and bit, and tore up the dirt in Seth Russell's grocery yard worser nor two wild bulls. Polly, ain't supper most ready? I'm monstrous hungry."

"Joe Stetson!" exclaimed Polly in a tone bristling with anger, "will you tell me who whipped?"

"Polly," said Joe, drawing a long sigh, "I hollered."

JOHNSON AS A FRIEND TO THE SOUTH.—In his speech at Canton, Ohio, a few days since, Senator Sherman, after referring to the adoption of the Constitutional Amendment, said:

"Even now, if the South, with the spirit that actuates Gen. Longstreet and others, would adopt the amendment, and elect loyal Senators and members under it, their admission to representation would be easy. I know what I say to you is true, when I declare that a majority of the Republican Senators and members would have admitted any rebel State upon adopting the amendment and complying with its terms."

President Johnson opposed that amendment. Had he not done so the South would have accepted it, and might now have been in the Union. The most of their present misfortune the Southern States owe to their persistence in taking bad advice. They will never get out of the ditch till they give up following a blind leader.

The Glasgow *Herald* relates the following story:—"The following is a scene that lately took place in one of the kirks at the Lewis, one of the Hebrides, on a Sabbath evening:—Minister (*inquisitor, from the pulpit*): Callum Mhor, why were you not in the church last Sabbath? Callum—I was in church last Sabbath. Minister—You were not, Callum—I was. Minister—Are you ready to swear you were? Callum—To be sure. Minister—Shut up. Friend, *sotto voce* to Callum, on the way out (for Callum had not been in church the Sabbath before)—Well, well, Callum, it was awful of you to offer your oath to a lie.' 'Ah, but, says Callum confidentially, 'isn't there a great difference between offering a thing and giving it?'"

BRONCHITIS OR CHRONIC SORE THROAT.—It is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. This irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood If it is neglected it will extend down to the lungs, and settle into confirmed consumption ALLEN'S LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into Consumption —Sold by dealers in family medicines generally.

FOR NON-RETENTION or INCONTINENCE of Urine, Irritation, Inflammation, or ulceration of the bladder or kidneys, diseases of the prostrate glands, stone in the bladder, calculus, gravel or brick dust deposits, and all diseases of the bladder, kidneys and dropsical swellings, Use HELMBOLD'S FLUID EXTRACT BUCHU.

We should not suffer from a Cough, which a few doses of **AYER'S CHERRY PECTORAL** will cure. Time, comfort, health, are all saved by it.

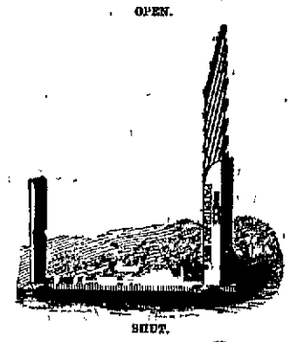
LEE'S
AMERICAN VERTICAL PICKET FARM & CARRIAGE
GATE!
PATENTED JULY 11TH, 1865.



THIS GATE WILL BE ON EXHIBITION AT THE
STATE FAIR!
When the Rights to the Counties of MARION, POLK, LINN, LANE, BENTON, JACKSON, JOSEPHINE, DOUGLAS, UMPQUA, COOS and CURRY will be offered for sale by my Agent.
The advantages of this gate may be summed up in this brief statement:
1st—being on a perfect balance and resting *on a castor near the base, and between two posts*, as may be seen in the diagram, there is no tendency to sag the posts from a perpendicular; it thus avoids the inconvenience so often experienced with the swing gate, that of dragging on the ground after a few years.
2d—It opens vertically and out of the way of the snow, mud and stones, requiring no additional space when open.
3d—It admits of more secure and cheaper fastening, while it is also a stronger gate than any other of the same amount of lumber.
4th—It can be easily opened from a carriage, without halting the horse or getting out, and even the field gate, without lovers, can be opened easily by any one on horseback, and without leaving a team
5th—It is not only the most convenient gate, but can be made 50 per cent. cheaper than any other kind now in use.
ANY SMART, ENTERPRISING CARPENTER CAN MAKE FIFTEEN TO THIRTY DOLLARS PER DAY MAKING THESE GATES.

CARD.
DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.
We have a truly healthful boarding place for men, women and children, and our prices are moderate.
The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.
Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."
Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.
